

SWEP D190

SWEP Brazed Plate Heat Exchanger D190 is a highly effective, versatile true dual that is a natural choice for two-phase applications. The advantage of D190 is its ability to offer full performance at both full and partial load. It is optimized for performance under extreme conditions by using environment friendly refrigerants, enabling our customers to use the compressor's whole envelope. The innovative plate design makes D190 outstanding in efficient heat exchange in applications combining small flows and wide range of pressures.

Basic specifications

Maximum number of plates (NoP)	190
Max flow	47 m ³ /h (206.93 gpm)
Channel volume	0.1654/0.1955 dm ³ (0.0058/0.0069 ft ³)
Material	316 Stainless Steel Plates, Cover Plates in 304 Stainless Steel, Copper Brazing
Weight excl. connections	6.19+(0.285*NoP) kg 13.64+(0.628*NoP) lb
Max Particle Size (mm)	0.9

Standard dimensions

#	MM	IN
A	525	20.67
B	202	7.95
C	228	8.98
D	136	5.35
F	10+2.11*(NoP)	0.39+0.08 *(NoP)
G	2	0.08
I	142	5.59
M	214	8.43
O	2	0.08
R	30	1.18
S	232	9.13
T	214	8.43
E_1	27	1.06
E_2	54	2.13

Available connections

Threaded Connection Victaulic Connection Solder Connection Solder Coned Connection Weld Connection

Product Concept

The Brazed Plate Heat Exchanger (BPHE) is constructed as a plate package of corrugated channel plates with a filler material between each plate. During the vacuum brazing process, the filler material forms a brazed joint at every contact point between the plates, creating complex channels. The BPHE allows media at different temperatures to come into close proximity, separated only by channel plates that enable heat from one media to be transferred to the other with very high efficiency. The concept is similar to other plate and frame technology, but without the gaskets and frame parts.

3rd party Approvals

Most SWEP products are approved by below listed certification organizations: Europe, Pressure Equipment Directive (PED) America, Underwriters Laboratories Inc (UL) Japan, Kouatsu-Gas Hoan Kyoukai (KHK) Additionally SWEP holds approvals from a vast variety of other certification organizations. For more details please contact your local SWEP representative. SWEP reserves the right to make changes without prior notice.

Find product solution - SSP

With SWEP's unique SSP, the SWEP Software Package, you can do advanced heat transfer calculations yourself. It's also easy to choose connections and generate drawings of the complete product. If you would like advice, SWEP offers all the service and support you need. Several SWEP accessories are also available to fulfill additional needs.

Disclaimer

The information and recommendations in regards to the products are presented in good faith, however, SWEP makes no representations or warranties as to the completeness or accuracy of the information. Information is supplied upon the condition that the purchasers will make their own determination as to the products' suitability for their purposes prior to use. Purchasers should note that the properties of the products are both application and material selection dependent and that products containing stainless steel are still object to corrosion if used in unsuitable environments. Standard data is presented, product variants with different data may exist. Contact your SWEP sales representative for more details. SWEP may change any data without notice.
