

SWEP B220

B220 is a compact but highly efficient Brazed Plate Heat Exchanger, which offers great heat transfer efficiency at a low cost. One main application is high efficiency tap water heating, but it can also be used in other single-phase applications such as oil cooling, space heating and desuperheaters. Thanks to its two-stack feature, the thermal length can be varied, and it is possible to get a tailored top performing product for each application.
